

MAKING AN
EVEN **BIGGER**
SPLASH!

Oxygen Elements MAX is designed to distribute oxygen to the cells, increase blood flow, and neutralize free radicals. This allows the body to flush lactic acid and more efficiently enhance physical performance as a direct result of sufficient blood and oxygen circulation. With the inclusion of fulvic acid, Oxygen Elements Max is now stronger than the original.

Got Enough Oxygen?

"Oxygen Elements MAX can be that first step toward better health, more energy, and greater vitality."

New Stronger Formula

Some ingredients in Oxygen Elements have been increased. New ultra-high quality minerals are used for better absorption, and fulvic acid has been added for increased efficacy. You will notice the difference in potency of the taste as well as performance. Follow label directions.

Oxygen Depletion

While eating, drinking, and merely living our normal daily lives, we are constantly taking unnatural synthetic non-food substances into our bodies. Preservatives, artificial colorings, flavorings, smog, fungi, artificial chemicals, hydrogenated oil, and fumes all contribute to the oxygen depletion in our bodies, not to mention the stress of everyday living.

What Can We Do?

Avoiding all oxygen-depleting conditions would not be easy. The use of Oxygen Elements MAX, however, may help us combat the effects of oxygen depletion, improving our oxygen levels as well as our chances for having good health.

Oxygen is one of the most essential elements for good health.

Oxygen Elements Max May Help:

- Increase cellular oxygenation
- Improve the rate of healing
- Increase endurance and stamina
- Improve blood flow
- Detoxify cells
- Improve glucose utilization
- Reduce chronic muscle soreness & fatigue
- Oxygen Elements is stimulant - FREE

Oxygen Elements MAX may also help the supplements and food you ingest daily become more available to your cells. Use it as a catalyst in your health program.

I am diabetic and have been taking Oxygen Elements for several weeks. I have tried several products in the past but this is the only product that I can tell makes a difference. I have far more energy and in general feel better.

- W. F. M., Torrance, California
