

New Packaging Design for ThreeLac & FiveLac

Exceptional Benefits,
Presented Beautifully.

Why the New Package?

Based on consumer feedback, ThreeLac and FiveLac are competitively outstanding probiotic blends that work!

We wanted to provide our consumers with clear and easy-to-understand reasons for the superiority of ThreeLac and FiveLac; and, we wanted to deliver this message in a bright, uplifting design.

The Refined Message We Present

We emphasize four key points on our new packaging regarding the elements behind the quality and effectiveness of the products. These points are:

1. Specific Selection of Bacteria Strains
2. The Controlled Manufacturing Process
3. The Focus on Eliminating Moisture
4. Complementary Ingredients

Same Product – Different Look

There have not been any changes made to the formulation, manufacturing process or stick packaging of ThreeLac or FiveLac. These are the same great products that have been satisfying millions of consumers for over nine years.

President's Message

"Producing and offering the highest quality GHT products has been one of my top priorities since joining the company. I have recently returned from my second trip to Japan, which included a detailed review and observation of the manufacturing and quality control processes behind the ThreeLac and FiveLac products. The meticulous care taken in order to keep contaminants out of the manufacturing and production areas, as well as the specialized equipment and trained personnel focused on eliminating moisture during each step is truly impressive. Please know that with this new packaging effort we wanted to share with our consumers these and other reasons why this probiotic is an exceptional world class product. If you have any questions, please do not hesitate to touch base with our Customer Service Team. Thank you for your interest in and continued support of our products."

– Jim Rex, President
